

Edentulous Tray Aways®

Edentulous Tray Aways® are single-use, perforated edentulous impression trays that can be easily drilled for implant impressions. These unique and economical trays allow for maximum material retention and accuracy without the use of an adhesive. These high impact styrene trays provide an excellent impression with outstanding details. Edentulous Tray Aways are anatomically designed to be patient friendly and to allow for a perfect fit in just one visit. Offered in three convenient sizes: small, medium, and large.
